9th Apollo INTERNATIONAL CLINICAL NUTRITION UPDATE - 2017

Translating Evidence Based Knowledge
to Clinical Nutrition Practice

Mumbai, India. 3rd & 4th June, 2017

Apollo Hospitals Group

Apollo Hospitals is the forerunner of integrated healthcare in Asia, as well as globally. Today, the group's futuristic vision has ensured that it has been in a position of strength at every touch point of the healthcare delivery chain. Its presence encompasses over 9,500 beds across 65 hospitals, more than 2500 pharmacies, over 100 primary care & diagnostic clinics, 125 telemedicine units across 9 countries, health insurance services, global projects consultancy, 15 academic institutions and a Research Foundation with a focus on global clinical trials, epidemiological studies, stem-cell and genetic research.

Evolution of AICNU

The Department of Dietetics, Apollo Hospitals Group organizes an annual conference to furnish a great rostrum and distinct opportunity to healthcare professionals in order to highlight the latest advancements and challenges in the field of Clinical Nutrition. The success of the past 8 AICNUs at various regions in India and the last one in Colombo, Srilanka has helped us accomplish and proceed in the knowledge sharing initiative.

On behalf of the organizing committee, we would like to invite you for the 9th Apollo International Clinical Nutrition Update (AICNU) 2017, which will be held for the 1st time in Mumbai, India. Today's Clinical Dietitians are challenged to stay abreast of current science in an ever-changing Clinical Nutrition environment to ensure their advice is grounded in the latest evidence. To address the need of healthcare professionals to be effective knowledge managers with ready access to timely, current and authoritative guidance on medical nutrition therapy questions encountered in every day clinical practice.

About AICNU 2017, Mumbai, India

The Annual AICNU provides a platform to discuss, explore, share, and learn new advancements in the field of clinical nutrition related to better healthcare strategies. This conference will highlight some of the most important topics like nutrition in intestinal failure, oncology nutrition, hospital malnutrition and clinical nutrition research that cover prominent features of better healthcare and aims at improving the knowledge of nutrition professionals towards better clinical nutrition practice. The 9th Annual AICNU Conference 2017 is scheduled to be held at Hotel Lalit, Mumbai, India, on 3rd and 4th June, 2017. The scientific programme includes a wide range of lectures, debates, symposia, abstracts sessions, discussions, and presentations related to the field of clinical nutrition.

Objectives

- Incorporate nutritional information into clinical practice and advise patients about eating for optimum health as well as using dietary change as a therapeutic intervention
- Evaluate the benefits and risks of nutritional recommendations for specific health conditions through an analysis of the existing scientific and clinical evidence
- We anticipate to gather a great deal of useful information from the attending pool of experts

Theme : "Connecting Evidence to Clinical Nutrition Practice"

Chief Patron Message

“Connecting Evidence to Clinical Nutrition Practice” – AICNU 2017

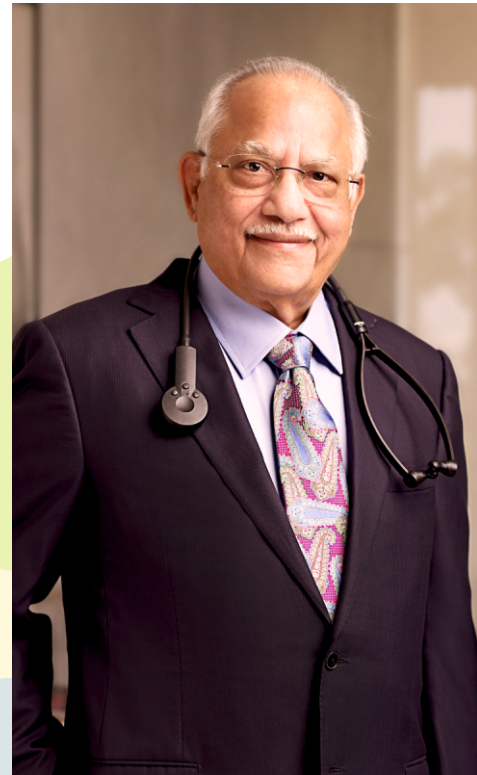

As dedicated members of a wholly patient-centric organization, the multispeciality clinical teams across Apollo Hospitals persevere relentlessly to introduce contemporary clinical procedures, innovative techniques of intervention and new ways to enhance patient recovery and satisfaction. As a case in point, for several years consecutively, Apollo Hospitals has been the world leader for its solid organ transplant programme and recently, the teams’ have started performing intestinal transplants, a cutting edge procedure in Asia.

Nutrition across all phases, pre and post-transplant is critical for the procedure and speedy recovery of the patient. Hence I am very pleased that the Department of Dietetics, Apollo Hospitals has chosen this as subject as the focal topic for the AICNU 2017, which takes it beyond practice to translational research.

I must congratulate the organising team of Apollo International Clinical Nutrition Update for their passionate commitment over the last 8 years towards sharing knowledge and raising the bar in clinical nutrition, in our Country. I do commend the 500+ delegates from 10 countries who have chosen to participate in AICNU 2017 to learn from stalwarts and share their knowledge with peers.

My best wishes to all the delegates and speakers for two days of intellectual simulation and potent collaboration. Nutrition defines each of our health and wellbeing. Hence, it will be healthy individuals, healthy communities and healthy nations who will nurture a healthier tomorrow for the world!

God bless. With best wishes

Dr. Prathap C Reddy
Executive Chairman
Apollo Hospitals Group

Dr. Bhuvaneshwari Shankar
Organising Chairperson , AICNU 2017

Organising Chairperson

Dr. Bhuvaneshwari Shankar is the Vice President (Dietetics) and Group Chief Dietitian for the Apollo Hospitals Group. She has 35 years of experience as a Dietitian.

She has been with the Apollo Hospitals for the last 33 years and has been instrumental in raising the Clinical Nutrition standards of the Apollo Hospitals to an appreciably high level of patient rating. She had been the organising chairperson for the past 8 AICNU's.
