

14th Apollo INTERNATIONAL CLINICAL NUTRITION UPDATE - 2022

Translating Evidence Based Knowledge
to Clinical Nutrition Practice

23rd & 24th September, 2022

EAR OF CLINICAL DIETETICS -
EVIDENCE, ACADEMICS AND RESEARCH

Apollo Hospitals Group

Apollo Hospitals has emerged as Asia's foremost integrated healthcare services provider and has a robust presence across the healthcare ecosystem. The cornerstones of Apollo's legacy are its unstinting focus on clinical excellence, affordable costs, modern technology and forward-looking research & academics. Apollo Hospitals was among the first few hospitals in the world to leverage technology to facilitate seamless healthcare delivery through electronic medical records, hospital information systems and telemedicine-based outreach initiatives. Since its inception, Apollo Hospitals has been honoured by the trust of over 150 million individuals who came from 140 countries. At the core of Apollo's patient-centric culture is TLC (Tender Loving Care), the magic that inspires hope amongst its patients.

Evolution of AICNU

The Department of Dietetics, Apollo Hospitals Group organizes an annual conference to furnish a great platform and distinct opportunity for Dietetic professionals in order to highlight the latest advancements and challenges in the field of Clinical Nutrition. The success of the past thirteen AICNUs at various states of India and Sri Lanka has helped us accomplish and proceed in the knowledge sharing initiative.

On behalf of the AICNU organizing committee, it gives us immense pleasure to invite you to the temple city of Bhubaneswar, Odisha for the 14th AICNU 2022. The field of clinical nutrition is very dynamic due to the continuous translational research, hence making it a challenge for Clinical Dietitians to practice effectively. The increasing scientific evidence on the significance of medical nutrition therapy for disease prevention and treatment calls for the Clinical Dietitians to be effective knowledge managers.

The theme of AICNU 2022 - "EAR of Clinical Dietetics - Evidence, Academics and Research" will encompass many facets related to Clinical Nutrition.

STAY ABREAST

Chief Patron Message

AICNU - 2022 - “EAR of Clinical Dietetics - Evidence, Academics and Research”

In my six-decade career as a clinician, I have observed and firmly believe that even the most seemingly insurmountable obstacles can be overcome, with resolute determination and persistence. Therefore, my commendations to all at AICNU – the organizing committee, the faculty and delegates for taking the time to stay abreast of ever-changing concepts in clinical nutrition and therein, raising the bar in nutritional excellence.

My appreciation to the entire faculty and 500+ delegates from India and neighbouring countries for their participation in AICNU 2022.

In light of the unprecedented increase in the prevalence of non-communicable diseases (NCDs), our collective war must be directed towards combating malnutrition. This is important, as nutritional care is vital for prevention and has also been observed to be effective in improving disease prognosis and outcomes.

Like always, this year too, the 14th edition of AICNU has a very pertinent theme -“EAR of Clinical Dietetics - Evidence, Academics and Research”. An esteemed faculty and innovative scientific sessions promise to make this edition too, a not to miss opportunity for Clinical Dietitians and Nutritionists. It is well poised to be a robust platform to learn about the recent trends in medical nutrition therapy, targeted nutritional interventions to bridge gaps and shape best practice guidelines.

You must bear in mind that your active participation will be greatly valuable to your teams, your institution and most importantly to your patients. Let us harness the power of enhanced nutrition to nurture healthier societies and a happier world.

With best personal regards,

Dr. Prathap C Reddy

Founder & Chairman, Apollo Hospitals Group

cordially invites you to the

**14th Apollo
INTERNATIONAL
CLINICAL NUTRITION
UPDATE - 2022**
