UPDATE - 2020

Translating Evidence Based Knowledge to Clinical Nutrition Practice

12th& 13th September 2020

Apollo Hospitals Group

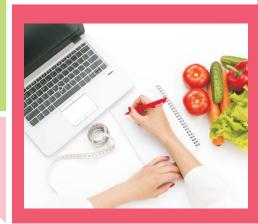

Apollo Hospitals is the forerunner of integrated healthcare in Asia, as well as globally. The cornerstones of Apollo's legacy are its unstinting focus on clinical excellence, affordable costs, technology and forward-looking research & academics. Since inception, Apollo Hospitals has been honoured by the trust of over 50 million patients from 140 countries. The core of Apollo's patient-centric culture is Tender Loving Care (TLC), the magic that inspires hope amongst its patients. Apollo Hospitals was among the first few hospitals in the world to leverage technology to facilitate seamless healthcare delivery through electronic medical records, hospital information systems and telemedicine-based outreach initiatives.

Evolution of AICNU

The Department of Dietetics, Apollo Hospitals Group organizes an annual conference to furnish a great platform and distinct opportunity to healthcare professionals in order to highlight the latest advancements and challenges in the field of Clinical Nutrition. The success of the past Eleven AlCNUs at various regions in India and Srilanka had helped us accomplish and proceed in the knowledge sharing initiative.

On behalf of the organizing committee, we would like to invite you to the 12th Apollo International Clinical Nutrition Update (AICNU) 2020, which is to be held virtually for the first time. Today's Clinical Dietitians are challenged to stay abreast of current science in an ever-changing Clinical Nutrition environment to ensure their advice is grounded in the latest evidence.

Under the theme "Optimizing Nutrition in Health and Disease", the AICNU 2020 programme will cover all areas related to clinical nutrition including but not limited to Nutrition care in HPN, Oncology, Protein in Hospitalized patients, Critical Care and Diabetic nutrition etc.

About 1st Virtual AICNU 2020

The Annual AlCNU provides a platform to deliberate, debate and discuss current challenges and learn new advancements to excel in the field of clinical nutrition related to better healthcare strategies. This conference will enlighten some of the key practical aspects of Nutrition care that will help enhance clinical nutrition practice by improving the knowledge of nutrition professionals towards better healthcare of India. The 12th Annual AlCNU Conference 2020 is scheduled to be held virtually, on 12th & 13th September, 2020. The scientific programme includes a wide range of lectures from eminent speakers, discussions, and presentations related to the field of clinical nutrition.

To upgrade and update the practical knowledge of clinical nutrition professionals with strategies to optimize nutrition in health and disease.

Theme

"Optimizing Nutrition in Health and Disease"

When and Where?

Date : 12th & 13th September, 2020.

Venue: Virtual

Chief Patron Message

AICNU - 2020 - "Optimizing Nutrition in Health and Disease"

In my six-decade career as a clinician, I have never witnessed a medical crisis as pervasive as the COVID-19 pandemic. Yet, it is heartening that despite the odds, people from across the world have come together, there is a spirit of collaboration and commitment to face the adversary united, and emerge successful.

Poor nutrition and unhealthy diets are a key risk factor of NCDs and I am hopeful that new ideas will emerge in the deliberations, as they would be invaluable in our collective war against NCDs.

So, at the outset, my commendations to the AICNU organizing committee for their continued dedication to keep raising the bar in clinical nutrition. My appreciation to the entire faculty and 1000+ delegates from India and neighbouring countries for their participation in AICNU 2020.

In the interdisciplinary field of clinical nutrition, it is critical that professionals stay abreast of the ever-growing changes to understand emerging standards, current research and innovations to maintain the highest level of competence, so that every patient receives optimal nutrition support. Therefore, the 12th edition of AlCNU has a very pertinent theme - Optimizing Nutrition in Health and Disease and it will assist Clinical Dietitians and Nutritionists to develop themselves as leaders and collaborators.

It is also important to note the duality of responsibility, when it is about health. We are responsible for our own health and wellbeing and also for all in our circle of influence. Bearing this in mind, as members of the medical fraternity, our foremost priority, must be to contribute to strengthening the healthcare fabric of our nations. I urge you to share and learn from AICNU 2020 to build a platform for best practices in clinical settings.

Above all, AICNU stands for powerful collaboration and the goal of this two-day virtual conference is to equip all with the new acumen as it is healthier nutrition that fuels healthier societies and together we can build a brighter tomorrow.

With best personal regards.

Dr. Prathap C ReddyExecutive Chairman
